PULS

PULS is Point Mobile's lifetime solution, which extends the life cycle of Android-based Point Mobile enterprise devices to up to **seven years after a product launch**. Security patches, updates and upgrades to newer Android versions[1] are provided during the entire lifetime of a device, which protects your data and gives you the benefit of using all the latest features the newest Android operating system has to offer.

While the life cycle of a consumer smartphone usually ends only two years after the initial market launch, Point Mobile devices are guaranteed an **extended lifetime and continuous service supply.**

PATCHES. UPDATES & LIFETIME SUPPORT

Update your devices "Over the Air"

Our built-in FOTA (Firmware Over the Air) application makes installing updates easy, reliable and fast[2]. Connect your device to a cellular network or a WiFi near you and check for the latest security updates or upgrade to the latest Android version with a single touch. There is no need to collect the devices from the field and update all of them manually. There will be no downtime and resources are saved as users can perform the installation on their own. All data remains safe on the device while the update only affects what requires fixing.

For more information about PULS and other Business Solutions offered by Point Mobile, please visit www.pointmobile.com or contact your regional sales representative.

Stay up-to-date with the latest updates for 7 years

PULS comes free of charge for security patches & updates

Get the latest Android version and its newest features

Conveniently update your devices in the field by FOTA

No extra costs or subscription for patches and updates

We made PULS convenient and easy: Security patches and updates come **free of charge**[3] as standard when a new Android-based Point Mobile device is purchased. No complicated subscription is required at any time!

TIMELINE

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7
PULS program available from the initial product launch until end of sales					Two additional years of PULS after end of sales	

[1]Upgrades to a newer Android version may require additional cost. Please contact your sales manager for further information.
[2]Update availability over FOTA may vary by model.
[3]Additional fees for downloading large files over cellular network may be charged by your carrier.
